

AccessConference OnDemand Audio Conferencing

Easy, instant conferencing - no reservations required

Conference anytime, with anyone, with reliable DSCI AccessConference OnDemand audio conferencing service. Connect participants using permanent, toll-free (North America) and toll (International) access for critical meetings. Enhance the productivity of worldwide collaboration by connecting up to 96 lines any time, day or night.

Features

- **Reservation-less:** on-demand status minimizes set up time for convenient, easy-to-access conferencing
- **Powerful, Convenient Controls:** phone keypad commands and our Web Moderator web-based controls give you complete control for dynamic conference configurations
- **Chairperson passcode:** maintain chairperson control and conference security
- **Redundant systems:** multiple, geographically distributed systems offer disaster protection and the ultimate in reliability
- **Knowledgeable service and support:** conference operator assistance is available 24/7; online support is also available
- **Account options:** configure the feature settings on your subscription, and change settings as often as you like
- **International Access:** toll-free access from the U.S.; international access via toll dial-in or dial out (additional charges apply) number
- **Quick Start:** allows conferences to begin without requiring the Chairperson to start the meeting
- **Auto continuation:** allows conferences to automatically continue until the last person disconnects or after the chairperson disconnects
- **Conference Recording:** record and archive your conferences--download recordings or archive and share online
- **Display As Billing Feature:** setup accounts for each chairperson--assign a text description with each conference account for easy auditing and tracking

Benefits

- **No reservation required:** conference anytime
- **Cost-Effective:** with one low rate and one invoice, meeting with anyone at any time without the cost of travel has never been easier
- **Chairperson control:** the chairperson passcode allows you to maintain control of the conference
- **Web Moderator collaboration:** AccessConference Web Moderator collaboration allows you to share slides and applications making meetings more productive
